Why Choose B&B Creations?

Who We Are

In a pet market that is flooded and growing every day, why choose B&B Creations? First, we offer only made or grown in the USA products. Quality matters and knowing how and where treats, toys, and other products you sell are made or grown is crucial to building customer trust and loyalty. All catnip used in our products is grown in Washington state and is certified organic. Toys, collars and leashes are made in Colorado where B&B Creations is located.

How We Give Back

The second and most compelling reason we can think of to support B&B Creations is our philanthropic focus. Net profits from the sale of B&B Creations products benefit pet charity, primarily Harley's Hope Foundation, the organization that launched Colorado Kitty Pot in 2014. Colorado Kitty Pot catnip started as a social enterprise to raise more funds for HHF to help keep pets and their people together. After a few years of running a busy charity and trying to manage a growing catnip business, the CKP brand was transferred to B&B Creations where it is now one of many products we offer. However, we believe strongly in giving back, so net profits will also go to benefit other safety net charities around the country.

For your *Kitty*

Did you know that catnip, in addition to providing feline fun, offers multiple benefits to cats? It stimulates kitties to get up and move, a good thing for overweight cats at higher risk for a number of health issues. Catnip tea can be used as a sponge bath for kitties who suffer with mildly itchy skin. And, the nip can be used as a training tool to address negative behaviors that cost countless kitties their homes and lives each and every year.
